# SUPPLEMENTARY INFORMATION

---

## EXTRA CURRICULAR ACTIVITIES

- 1.Member of NSS, Light & Sound and YOGA clubs at NITK.
- 2.An Executive Member of the college annual cultural fest 'Incident' for the last 3 years.
- 3.Was actively involved in numerous social activities such as Ward and Town Cleaning Drives, Tree Planting, Beach Cleaning and Blood Donation Camp.

## ABOUT MYSELF

I'm an honest and hardworking person. I love working with new technologies and gaining new skills. I enjoy experimenting with new ideas and concepts and applying them in real life scenarios. Apart from this, i have great interests in sports like cricket and martial arts. Also, i have currently developed interest in chess too. I also enjoy listening to music and watching movies.

## CO-CURRICULAR ACTIVITIES

- 1.Designed and developed a Hotel Reservation System using PHP and HTML as the frond-end and MySQL Database as the back-end. The application can be used for searching hotels, booking rooms and even cancelling reservations.
- 2.Designed a College Website using Joomla,an opensource Content Management System.
- 3.Designed and developed a Communication Tool and Platform for Patients and Doctors. The application is primarily intended to provide an environment wherein both the patients and the doctors can keep in touch with each other for different medical purposes such as getting medical queries from patients, accessing medical informations of patients, making and scheduling appointments, etc. This application was developed using PHP, HTML and CSS for frond-end and MySQL Database Server for the back-end.
- 4.Developed an image cropping application using PHP. With this application, one can reduce or enlarge the size of any image without much loss of quality.
- 5.Designed and developed a File Upload and Download System using PHP. The application can be used to upload files to any remote server with ease. It also has the feature of downloading files from remote server into the client system.
- 6.Guided and assisted in the development of an Online Course Registration System.
- 7.Designed and developed a simple Java based Game in which a player has to guess certain number generated by the computer, for a specified number of times. If the player guesses the number correctly in the first attempt,he wins otherwise computer will display appropriate message depending on the number of attempt the player made to guess correctly.
- 8.Currently designing and developing a Social Networking Site named '7vensis' as a personal project. The site is being developed along the lines of popular networking sites such as Facebook, Orkut, Hi5 and Twitter.
