ABOUT MYSELF

I am hard working, enthusiastic, punctual, willing to accept challenges, look at problems differently, strong analytical and problem solving skills, ability to work amicably in groups and adapt to new methods and technologies.

CO-CURRICULAR ACTIVITIES

- Drawing and animation toolkit

Designed a drawing and animation toolkit in C language by implementing the knowledge of computer graphics with the features like pattern drawing, file handling, cropping.

- Optical character recognition

Completed the project in Visual basics 5.0 by implementing the idea of image processing, under the guidance of Dr. T.K.Saxena, Scientist-B, National Physical Laboratory. Project can take the input as any fixed size image containing character and deliver the output as character detected.

- Database system

Made a database system for share brokers by using the GUI of Visual basics 6.0 and database handling of SQL. This project is used by share brokers for managing the database of their customers and for providing them instant access to their account. Project also displays the sensex graph and other detail of stock market.

- SQL

Created my own structured query language using c. It can perform various basic operations of data handling.

- Web designing

Designed dynamic web pages of "www.onlinetravelplanner.com". This project can be used by the travel agencies to provide great deals to their customers. It is also having the feature of online transaction.

- Tensigrity structures

worked in developing a software in java, which can test the stability of tensigrity structures and can obtain the desired results on performing various operations on the tensigrity structures under Prof. Tim Poston, National Institute of Advanced Studies, IISc Bangalore.
